

HIGH RESILIENCE FOAM

These foams have a resilience of greater than 45%, which indicates good recovery and ultimate comfort. This is the only foam in cushioning which has properties that are close to or are better than Natural Latex.

High resilience foam is used all over the world to create high quality bedding and furniture.

Grades & Specifications

Grade	Nominal Density (kg/m ³)	Hardness 'N' (at 40% compression)	Resilience	Applicable Standards	Uses
28 HR	28 ₊₁	50 - 70	55% min	IS - 7888 ASTMD:3574	Mattress Overlays, Bed Rest, Bags, Furniture Cushioning
32 HR	32 ₊₁	80 - 100	50% min	IS - 7888 ASTMD:3574	Mattress Overlays, Bed Rest, Bags, Furniture Cushioning
35 HR	35 ₊₂	170 - 230	45% min	IS-7888 ASTMD:3574	Firm Seating
60 HR	60 ₊₂	130 - 170	48% min	IS-7888 ASTMD:3574	Commercial Seating, Transport Seating, Mattresses

Major Applications

- High quality bedding
- Furniture

Furniture Cushioning
