

GO TO BED
WITH SOMEONE COOL,
EVERY NIGHT.

Presenting **Resitec Air** India's first mattress with
Advanced Air Flow System.

A unique combination of scientifically developed Reticoil™ Layer that promotes Air Circulation keeping it cool and a Resitec Core that reduces pressure points for desired comfort.

Sleepwell
Resitec Air

Sleepwell is recognized in India as a specialist who provides state of the art sleep solutions that lead to good health and serenity in our daily lives. A flagship brand of Sheela Group, which is ISO 9001 certified company

Sleepwell has established itself on the relentless endeavour to bring the most advanced technologies from across the world, and on matching its products with the demands of the modern consumer. Our innovative range of products underline our focus on not just sleep but on quality of sleep.

Resitec Air

Sleepwell presents Resitec Air™ India's only mattress with a combination of scientifically developed Reticoil™ Layer and state of the art Resitec Core. Reticoil™ Layer offers Advanced Air Circulation, a technological breakthrough in comfort against heat and humidity. The Resitec Core with its High Resilience Flexi PUF technology reduces the pressure points on the body.

Key Features & Benefits:

- Reticoil™ Layer

Scientifically developed Reticoil™ Layer promotes Air Circulation reducing humidity and heat for desired comfort and quality of sleep.

• Resitec core

- High resilience Flexi PUF Technology offers ultimate comfort with superior bounce.

- Reduces pressure points thereby providing adequate comfort and support.

• Premium Jacquard fabric quilted with High Density Ultra Soft Flexi PUF on both sides.

• Comes with 5 years of guarantee.

Health Fresh™ Advantage

Resitec Air™ mattresses are treated with Health Fresh™, an internationally recognised treatment that prevents the breeding of dust mites and bacteria which avoids respiratory problems and is a boon to asthmatics.

SANtech™ Advantage:

All Sleepwell Flexi PUF products incorporate advanced SANtech™ technology to enhance firmness and breathability for added comfort.
